### Consulting Industry Specialty

#### Growing a Consulting business today is not easy.

The Consulting sector is a \$150 billion industry. The industry is highly fragmented with the top 50 firms generating just 30% of revenue. The success and profitability of a Consulting firm depends on efficient operations and their ability to maintain a steady flow of business.

Large firms have advantages in being able to offer a broad ranges of services and to take on more complex projects. Small firms can compete successfully by specializing in niche services and markets.

Right now, perhaps more than ever before, Consulting firms need to find new ways to improve their business performance and revenue growth. What worked in the past, does not work today. You need to implement new strategies, tactics and proven best practices to meet or exceed your business performance goals.
